Connect Portal

For your on demand pricing needs

**ASC** Engineered Solutions

The ASC Connect Portal gives you all the information needed, in real-time to plan and quote before placing an order and monitor your order status and history. Access anytime, from anywhere, on your schedule.

You can create an account on our website today (free of charge) or modify your existing account to request pricing access by account ship-to location at connectportal.asc-es.com.

Current Features:

- Obtain current product list and net pricing
- Obtain current inventory positions by location
- Save favorite products to a list for later reference
  - Automatically updates pricing and inventory every time your list is opened
- Build lists for large quotes
- Download full product category price files into excel
- Search for price or inventory by Item Number or UPC
- Download full product category net price files into excel
- Submit and track RMA claims and return requests

New for 2023:

- View your order history
- View the status of each line item in your order
- Obtain order tracking information
- View & download order invoices and packing slips
